WELCOME TO TAMPERE

Tampere, the most attractive city in Finland according to us Finns! Tampere is the most loved residential and tourism city in Finland. It is a way of life that takes you along. The secret of Tampere is its originality. Tampere is a functional entity in a compact size.

Thousands of congress delegates and over one million travelers visit Tampere every year.

The industrial structure of Tampere is versatile. Tampere is internationally known as a city of technology, often going in the forefront of development. The hometown of innovations has made many world-class breakthroughs and has developed products and services that improve the quality of life of ordinary people.

Tampere is defined by a few unique characteristics: it is surrounded by beautiful lakes and eskers; it has a perfect scale for walking and there is always something new and innovative going on. The centre of the city is dominated by industrial heritage; the national landscape of Tammerkoski rapids and historical red brick buildings. But in Tampere we do not look back, and therefore construction sites are often seen in everyday street life.

From the cultural point of view, Tampere is defined by our local treats of black sausage with lingonberry sauce and the world's best doughnuts, morning coffee at Laukontori Market Square enjoyed in a small lake breeze, our imaginative museums, events after events, vibrant cool laziness and the fact that we are the Sauna Capital of the World.
